DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, 24-31, 35-41, 45-47, drawn to lens system, classified in class 359, subclass 785.
- II. Claims 21-23, 32-34, 42-44, 48-50, drawn to a lens system with a lens barrel, classified in class 359, subclass 819.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as mutually exclusive species in an intermediate-final product relationship. Distinctness is proven for claims in this relationship if the intermediate product is useful to make other than the final product, and the species are patentably distinct (MPEP § 806.05(j)). In the instant case, the intermediate product is deemed to be useful as a lens system for a camera telephone and the inventions are deemed patentably distinct because there is nothing on this record to show them to be obvious variants.
